

INNOVATIONS WINBACK AUTUMN 2016

Dear Winbacker,

This article will introduce the latest WINBACK innovations for the end of 2016. These innovations are the results of more than 9 months of evaluations and feedback from our **Experts Winback testers**.

I wanted to thank all of you because it is your comments and observations who make the Winback product evolve to answer your needs on a daily basis.

Your energy is the fuel for our innovations !

Your BACK 3 will evolve shortly to become **more intuitive** and **more efficient**.

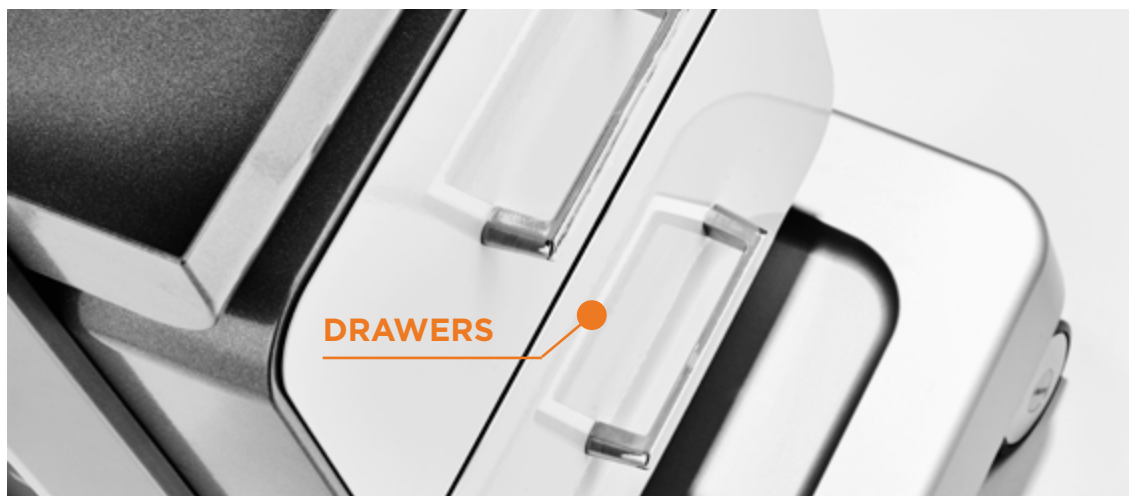

Christophe Buée

A NEW SUPPORT TRAY COMPLETE CONVENIENT

A new support tray is available with drawers, guidance for the cable so they do not touch the floor, storage rooms, ergonomic support for accessories and well balanced weight to go through obstacles.

Improved mobility, treatment confort and easier storage.

Availability : October 2016 / Pre-order possible

4 common generic cables compatible with its treatments heads (CET/RET/MIX/RETURN).

Thanks to the generic common cables (CET/RET/MIX/RETURN), you can change the treatment head in only one second. All the electrodes of a category ((CET/RET/MIX/RETURN), can be adapted on their standard generic cable. It is no longer to change the treatment head at the back of the machine thanks to the adapter

Change heads in 1 second

TECHNOLOGY AT YOUR SERVICE

INNOVATIONS WINBACK AUTUMN 2016

2 NEW APPROACHES TO TECARTHERAPY

New MY BACK bracer - The must for manual therapists

The new MYBACK bracer frees your hands and offer unique treatment confort

In half a second you can equip your MYBACK and start a treatment.

No need for cream on your arms. The contact surface between your skin an the bracer is optimal.

Save some time and free your hands. the must for manual experts.

3 NEW SOFTWARE PROGRAMS MORE COMFORT FOR YOU AND YOUR PATIENTS

TIC : Touch Intensity Control. This feature enables the control of intensity (increase/decrease) from the electrode. No need to touch the screen anymore ! **More comfort for you and your patients**

AUTO SWAP : The Winback device automatically recognizes the change in the application mode during the patient treatment. No need to touch/control the screen. Your BACK3 recognizes the CET or RET active mode. **Treat freely, Winback intelligence is with you.**

MIX DETECT : Your Winback device automatically detects which MIX head is plugged in.

TECAR 5.0

WINBACK tecartherapy takes the lead again with the new TECARTHERAPIE 5.0 : 3 electrodes are placed in contact with the patient and the energy goes through 2 fixed or mobile electrodes.. This feature enables a well balanced diffusion of the energy on two areas (IR 2 legs) to treat them at the same time. Another configuration offers 2 active hands for your massage.

TECAR 5.0 exists in 2 versions : TECAR 5 RET or TECAR 5 MIX

With WINBACK, discover 5 ways (1.0,2.0,3.0,4.0,5.0) to apply TECAR.
